BII | Science | Prize for Innovation

Bring Science to Life

Behind every life-changing solution is an entrepreneurial scientist – a creative mind who developed an idea in the lab and dared to carry it out into the world.

To encourage more scientists to translate their research, BioInnovation Institute (BII) and *Science* are collaborating to host an annual award.

Up to three winners will have their essays published in *Science* magazine and will be invited into BII's entrepreneurial ecosystem. In addition, the Grand Prize winner will receive a prize of USD 25,000, and each finalist will receive USD 10,000 at a grand award ceremony in Copenhagen, Denmark.
